

## **100% durable modified plywood**

- **Ultra-durable panel for outdoor application**
- **Sustainable European plantation wood**
- **Lightweight & easy-to-machine**
- **Stability & dimensional uniformity**

## Product description:

Ultra-durable panel for outdoor use in the most demanding conditions, composed of sustainable plantation wood.

Plywood modified using an innovative treatment renders the entire panel exceptionally durable. Immune to fungal and insect attack, even when used outdoors and in the most demanding of weather conditions.

Its CE2 + structural certificate, lightness, surface quality and ease of machining makes it perfect for facades and other construction applications.

Maximum sustainability due to its composition based on fast growing European plantation wood.

**Glue Type:** Class III (exterior) according to the rule EN 636

**Emission:** Class E1 according to the rule EN 13986

**Quality faces:** BB/BB

## Applications/Uses:

Perfect for external applications: sandwich panels, light lattice construction, advertising panels, message signs/panels, facades, roof supports, ledges, gardening, parks, recreational areas, street furniture, etc.

### Formats

Dimensions mm	2440x1220, 3100x1530			
Thickness mm	10	12	15	18
No. of plies	5	7	7	9

*Formats may vary without notice. Please contact your local sales manager to check the availability in your region*

### Technical features

	Values	Standard
Density (Kg/m <sup>3</sup> )	440-500	UNE EN 323
MOE - Modulus of elasticity (N/mm <sup>2</sup> )	3.400-5.500	UNE EN 310
Face Screw Holding (kgf)	135	UNE EN 320
Moisture content (%)	6-14	UNE EN 322

The mark of responsible forestry

Wood is a natural material and as such is unique in appearance and so often has naturally occurring variations in colour, texture and grain pattern. The photographic reproductions used simply provide an example of a product's appearance and may not be representative of the full range of colour, texture and grain variations. The data provided in this product specification should be used solely as a guide and is of no contractual value. It is the responsibility of the acquirer to determine if the product is suitable for the required application, to ensure that both the place and form of use are appropriate and in accordance with the manufacturer's requirements and recommendations and is in line with current regulations.
